

## Design Your Own Logo Create

Name: \_\_\_\_\_

Class: \_\_\_\_\_

It's time to make your logo a reality!

---

### Create

Use **Freehand** to create your logo. Use the rough draft you selected at the plan stage as a guide while you create your logo. Your logo must demonstrate the qualities of **excellent logo design** we discussed in class.

*Earn extra points:* Create an exceptionally professional looking or creative logo.

**IT Standard 1.3:** Demonstrate a sound understanding of basic operations and concepts of technology systems.

**IT Standard 3.1:** Demonstrate use of technology tools to enhance learning, increase productivity, and promote creativity.

**IT Standard 4.2:** Demonstrate competence in the use of technology communication tools.

---

### Reflect

Type a reflection describing your feelings about your finished logo:

- Are you happy with the final product?
- Was it difficult/easy to create? Why?
- Did you enjoy this part of the project? Why or why not?
- Which **criteria** (from the investigation) does your logo meet?
- How did you meet those criteria?
- What do you feel you need to learn now to be a more advanced user of Freehand?

*Earn extra points:* Use exceptional detail to describe your choices and opinions.

**IT Standard 6.1:** Demonstrate competence in the use of technology in problem-solving and decision-making.
