

## e-Card Animation Create

Name: \_\_\_\_\_

Class: \_\_\_\_\_

It's time to make your animation a reality!

---

### Create

Use **Flash** to create your animation. Use your storyboard as a guide while you create your animation. Your animation must demonstrate the qualities of **excellent animation design** we discussed in class.

Make sure you include:

- Motion tween
- Shape tween
- Rotation
- Color change
- Text (greeting)

*Earn extra points:* Create an exceptionally professional looking or creative e-card animation.

**IT Standard 1.3:** Demonstrate a sound understanding of basic operations and concepts of technology systems.

**IT Standard 3.1:** Demonstrate use of technology tools to enhance learning, increase productivity, and promote creativity.

**IT Standard 4.2:** Demonstrate competence in the use of technology communication tools.

---

### Reflect

Type a reflection describing your feelings about your finished animation:

- Which criteria did you meet (from our class list of animation criteria that we made in the Investigate stage).
- How did you (or what did you do to) meet that criteria?
- Are you happy with the final product?
- Was it difficult/easy to create? Why?
- Did you enjoy this part of the project? Why or why not?
- What did you learn during this part of the project?
- What do you feel you need to learn now to be a more advanced user of Flash?

*Earn extra points:* Use exceptional detail to describe your choices and opinions.

**IT Standard 6.1:** Demonstrate competence in the use of technology in problem-solving and decision-making.
